September 9th EBARC Meeting

Peter Hoffman, W6DEI

We'll meet in the community meeting room at the El Sobrante Library, 4191 Appian Way. Enter through the back door.

Our September speaker is Martin Rothfield, W6MRR (with a little help from W6DEI). What hasn't gone digital these days? We now get our broadcast TV in digital form, our music is mostly downloaded in digital formats, and most of our photographs are done with digital cameras. But ham radio phone transmissions are still overwhelmingly ANALOG SSB or FM. Something tells me that's got to change and maybe sooner than we think. Some exciting (and FREE) software is already available to get you started with digital voice communications on the ham bands.

October 14th EBARC Meeting

We're looking for a speaker to talk about AMSAT (ham radio on satellites). Stay tuned...
